

## Product information

# JOINT CUTTER CF- 7.1 B

- for cutting in asphalt, concrete and similar abrasive construction materials
- infinitely adjustable cutting depth adjustment via swivel cutting head and operating lever
- drive of cutting shaft via V-ribbed belts
- water supply from pressure main or water tank
- ergonomically designed and height-adjustable machine handle of low vibrations

The new joint cutter CF-7.1 B achieves a good cutting performance in asphalt, concrete and in similar abrasive construction materials. It is especially appropriate for minor road repairing and for garden and landscaping. Easy handling and compact dimension make this machine ideal for rental business. Its compact construction ensures maximum flexibility during cutting and during transport, which makes the CF-7.1 B an ideal machine for repair jobs in areas narrow and of difficult access.

Its robust construction and an easy to retighten, generously dimensioned belt drive in the swivel arm ensure a long and maintenance-free time of operation. Sensitive variation of the cutting depth can be accomplished by an operating lever with integrated depth indicator. Accurate, longer cuts can easily be effected by means of a front visor. To guarantee a user-optimized application, the CF-7.1 B disposes of a rubber mounted handle of low vibrations.

### Technical data CF-7.1 B

order-No.	-	30 85
max. cutting depth	mm	150
blade-Ø from - to	mm	350 - 400
bore hole of blade	mm	25,4
blade mounting	lateral	left side
max. mounting width	mm	10
speed of cutting shaft	rpm	2240
motor output	kW	4,1
motor type	petrol	Honda GX-200 QX-4-x
motor starter	-	reversing start
cutting depth adjustment	-	operating lever
feed	-	manual
contents water container	l	22
dimensions L/W/H	mm	1030/520/990
weight	kg	62
sound pressure level	dB (A)	82
sound power level	dB (A)	99
