COMBI Range

Combined electric bender & shears

Specially recommended for rebar production in small - medium housing or infrastructure projects with rebar sizes of up to Ø36mm / $1^{3/8}$ " (#11) for cutting and Ø52mm / 2" for bending, such as small resorts, condominiums, villas, low height apartment buildings, etc. A multi-purpose machine which also allows production of stirrups, spirals and hoops with its optional accessories.

The **COMBI** range is an ideal solution for small to medium rebar contractors and manufacturers, providing full working autonomy in any rebar work, and at a very low cost.

One machine, a single investment to do all rebar jobs with a medium production: bending, cutting, stirrups and spirals / hoops.

The most complete package.

- COMBI machines have the same production and bending capacities as our DEL range benders.
- They are also featured with the same electrical and mechanical safety devices as **DEL** machines and its electric components are of worldwide known top quality suppliers as Schneider-Electric.
- Cast-iron shear body and gearbox case to ensure heavy duty performance and endurance with the lowest maintenance. Oil bath, trapezoidal and helicoidal gears.
- Safety shield with limit switch on shear body and bending table.
- Easy low-cost maintenance can be even performed on site by the machine operator.
- Single-phase 220V version with inverter technology available for model **COMBI 25/32**. The inverter stabilizes the electric supply so it makes the motor life longer. Two speeds motor available upon request on models **COMBI 25/32** and **COMBI 30/36**.

FEATURES AND BENEFITS OF THE DEL AND COMBI RANGE

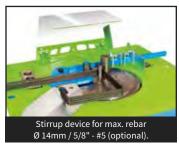

4-IN-1 MACHINE:

Cutting, thanks to its shear jaw simultaneously operated with the bending plate.

Bending, operated as our DEL range rebar benders.

Stirrups production using the optional stirrups accessory.

Production of **spirals**, rings and arches using the optional Spirals Bending accessory
