

Smart Communication Solutions Special Response and Military Teams

Today's missions for Special Response and Military Teams have changed - the reactions are quicker, the calls more urgent and the dangers greater. Whether serving high-risk arrest warrants, performing counter-terrorism tasks, or engaging in other activities where threat is ever-present, workers must be protected, connected and comfortable.

Urgent call

Fast response

3M Personal Protection Equipment and technology deliver integrated safety solutions to help keep every individual on every team both safe and comfortable, particularly for extended periods of wear.

Greater danger

You Protect Us. We Protect You.

Whether the threat level is high or low, 3M hearing and communication solutions offer integrated options to help keep you protected and comfortable until the mission is complete.

3M™ PELTOR™ ComTac XPI Headset

Level-dependent Hearing Protection

Special Response Headset

Military Headset

- **Hearing Protection**
Noise attenuating headset helps provide hearing protection in environments with potentially hazardous noise
- **Situational Awareness**
Level-dependent function for situational awareness and communication
- **Connectivity & Communication**
The external radio jack or connection cable provides the possibility to connect to an external communication device
- **Easy to use**
The headset is controlled with three buttons along with a ghost voice to help guide you through the settings

Hearing protection with level-dependent function for ambient listening

Hearing protection with external audio input

3M™ PELTOR™ ComTac XPI Headset

Level-dependent Hearing Protection

Stainless Steel Wire Headband

Wire headband offers comfortable and consistent pressure

Level-dependent Microphone

Supports situational awareness and communication

External Connector Cable

Provides the possibility to connect direct to a communication device via an adaptor

Protection Against Common Hazards

Weapon fire - Sharp bursts of impulse noise at close range

Flashbang - Sudden impact noise from explosive devices, such as stun grenades or sound bombs, that can temporarily disorient the senses

Distracting Noise - Loud, surrounding noise that prevents or interrupts team communication and situational awareness

Hearing Protection

Noise attenuating ear cups help provide hearing protection in environments with potentially hazardous noise

Boom Speech Microphone

Helps you to communicate via radio or intercom in noisy environments

Special Response Headset Models

Special Response Headset model shown, features also apply to Military model.
