Drawbar	Retrofit kit with braking function				4230.0038

RAS-90-GR

### Roller Adapter Kit RAS-90-GR

Large slabs with decorative surfaces are becoming increasingly popular and are often used in public areas and facilities.

A roller compactor is the perfect solution for gentle compaction of these large slabs and for gentle compression of concrete pavers and slabs into the bedding.

▶ With the RAS-90-GR roller adapter kit, any plate compactor that is commercially available as standard can now be retrofitted as a full roller compactor.

▶ The RAS-90-GR can thus be rolled gently over the material. This prevents the slabs from shifting or even corners and edges from breaking out.

- ▶ Grey rollers leave no marks on the slabs.
- ▶ Leading manufacturers of large slabs recommend roller compactors.

Type	Description	Order-Number
<b>Roller adapter kit RAS-90-GR</b>	For mounting on conventional plate compactors. Is simply attached to the plate compactor by means of 2 clamping claws. For plate compactor sizes ranging from 450 to 650 mm.	<b>5135.0004-001</b>
